## Health and Safety

Handwashing is a great practice here at Bright Ideas. To stop the spread of germs, make regular hand washing a rule for everyone, especially:

- before eating and cooking
  - after using the bathroom
  - after cleaning around the house
  - after touching animals, including family [pets](#)
  - before and after visiting or taking care of any sick friends or relatives
  - after blowing one's nose, coughing, or sneezing
  - after being outside (playing, gardening, walking the dog, etc.)
- Don't under estimate the power of handwashing.
