Health & Safety

To keep warm while out and about:

- Stay out of the wind. Seek out a sheltered spot.
- Wear a warm hat
- Drink something hot.
- Be comfortable - being uncomfortable can make you colder by being mentally stressed.
- Be mentally prepared to be a little bit cooler than your ideal of being "nice and warm".
- Stay active, but don't sweat.
- Eat something, more like a snack.
- Put on more clothing.
- If your feet are damp, put on dry socks, and wear dry boots.
- If the sun is out, tilt your face towards the sun - you can absorb a lot of heat this way.
